

CDAP Display Impact - SFY 2021 ACC KPI Changes

As part of the November CDAP monthly data refresh process, CDAP refreshes both KPI and APM dashboard data. KPI dashboards with data for the rolling period August 2020 – July 2021. APM dashboards with a new time period starting July 2020 – June 2021.

The Department will begin using the following three CareAnalyzer (CA) calculated measures as Key Performance Indicators (KPIs) starting with State Fiscal Year (SFY) 2021-2022 as part of the Accountable Care Collaborative (ACC) program.

- Well-Child Visits in 1st 30 Months - First 15 Months
- Well-Child Visits in 1st 30 Months - 15-30 Months
- Child and Adolescent Well-Care Visits - 1 or More Visits

The Department has also removed Well Visits and Health Neighborhood measures as KPIs for incentive payment.

CDAP's Next Release:

CDAP will accommodate the following measure changes to KPI dashboards as part of CDAP's next release:

- Add below CA measures to KPI Dashboards
 - Well-Child Visits in 1st 30 Months - First 15 Months
 - Well-Child Visits in 1st 30 Months - 15-30 Months
 - Child and Adolescent Well-Care Visits - 1 or More Visits
- Remove retired Health Neighborhood measure from KPI dashboards
- Move Well Visits measure from KPI dashboards to Other Program Measures dashboard

CDAP display from November 2021 refresh until CDAP's next release

The DW features to update the KPIs were released in October. This release impacts the CDAP as follows:

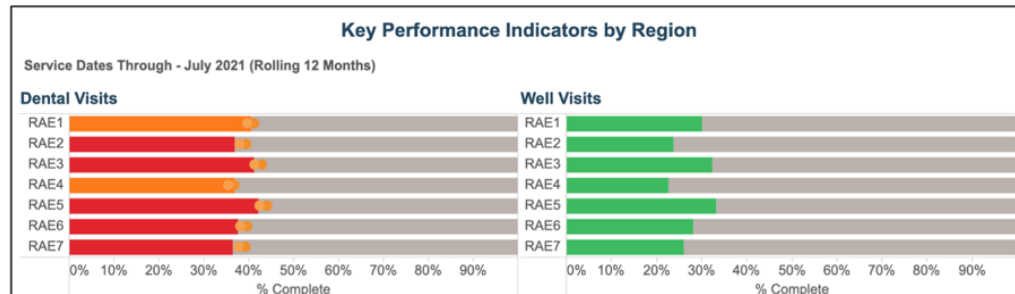

- PCMPs performance on the following CA measures can be viewed in APM Measure Summary dashboard (Menu>APM Reports>APM Measure Summary)
 - Well-Child Visits in 1st 30 Months - First 15 Months
 - Well-Child Visits in 1st 30 Months - 15-30 Months
 - Child and Adolescent Well-Care Visits - 1 or More Visits

Measure	Denom	Num	Rate	Peer Average Denom	Peer Average Num	Peer Average Rate	# Peer MDs	Quartile
Antidepressant Med Mgmt - Acute	1	1	100.00%	Null	Null	Null	Null	Null
